

Grasses - Care Guide

Evergreen Grasses

1. An evergreen grass only needs the dead blades removed

2. Gently tease your fingers through the plant, as if you were brushing it

3. This will remove the loose dead blades, be careful not to pull too hard

4. Should leave a nice clean grass for the winter

Tidying Perennial Grasses - Video Tip

Tidying perennial grasses.

Deciduous Grasses

1. Deciduous grasses tend to look messy at this time of year

2. Using sharp snips cut back top growth to the ground

3. Cut back all of the top growth, removing weeds and pests as you go

4. Tidy up and compost
waste material
